

Portfolio Tester 3.0

May, 2020

Product Overview

The Portfolio Tester 3.0 allows you to automate and streamline your EA testing.

Figure out if your ideas and intuition make sense! Prove or disprove your strategy by testing it.

Level set your expectations. Testing allows you to be realistic about what to expect from your trading strategy.

By testing properly, you can manage your risk and position sizing.

Optimize your strategy. Test runs can help you figure out what is working and what is not!

Why EA Testing?

EA Testing is important to prove or disprove strategies and level set expectations about what to expect from a strategy. In addition, by testing properly, you can manage your risk, position sizing and even optimize your strategy. The only issue with manual EA testing is that it is extremely time consuming and tedious. Imagine backtesting a strategy on 19 symbols, 3 timeframes with 6 different settings. That amounts to 342 tests!

Portfolio Tester 3.0. Let the tool do it for you!

Instead of doing it manually, you should automate your tests. That is exactly what the Portfolio Tester 3.0 allows you to do. Let the tool run your tests while you go for a coffee, take a walk or go to sleep! Take a look at our teaser video, [EA Testing Streamlined](#).

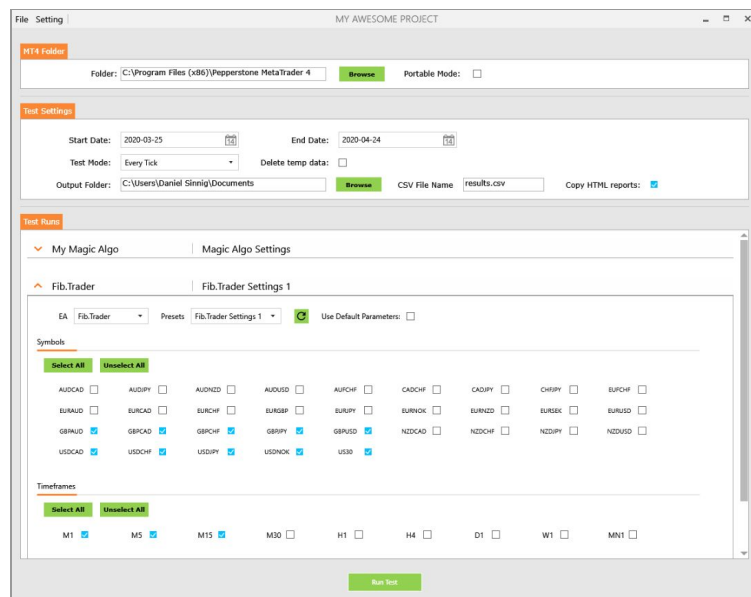

WHAT CAN THE TESTER DO FOR YOU?

- + Automate tests across multiple strategies, symbols and timeframes
- + Specify your tests with a couple of clicks
- + Eliminate tedious manual testing
- + Runs your tests in the background
- + Save your backtest projects for easy replay
- + Customize and edit your symbols and spreads
- + Works with all MT4 symbols
- + Reporting of test results in CSV

Cool Features

Besides automating testing across multiple EAs, symbols and timeframes, the new generation of the Portfolio Tester allows you to save your backtest projects for easy replay. Customize and edit your symbols and spreads with a couple of clicks using our new slick User Interface! The tool works with all MT4 symbols and you can even save test results and view them later in a spreadsheet!

Backtesting doesn't have to be time consuming and tedious.

The Portfolio Tester 3.0 is a smart tool that makes your trading life easier!
